The General Manager
PO Box 191
Coonabarabran NSW 2357

Dear Sir,

Thank you for the opportunity to respond to the beautification proposal for Cowper Street.

Two vehicle entrances to Christ Church Anglican Church and the church rectory are located in Cowper Street. The Parish Council wish to inform the Warrumbungle Shire Council that when services are held in the church, or functions held in the hall, it is customary for vehicles to be angle parked on either side of Cowper Street. Please consider the placement of trees to make this still possible and allow for through traffic.

When vehicles enter into Cowper Street from Dalgarno Street and then into the drive way of the church, markings on the road at present time indicating a tree and its surrounds, seem to be obstructing ease of entry. This maybe of more concern for larger vehicles such as a hearse. Please take this into consideration.

With due consideration given to the above information, the Parish Council support the support the beautification of Cowper Street proposal.

Yours sincerely

Shane Weatherall

Dear Sir,

I totally agree with the Charles Street makeover and encourage this adventure as I think that even though we are in a drought, I think having something nice to appreciate for ourselves as well as the tourist can only have a positive outlook for mental health. I hope that others can think outside the box. Droughts don't have to be dry and ugly, with a little bit of help from everybody. I personally have tried to do my little bit down Castlereagh St.

Regards

Dear Sir/Madam,

Thank you for the recent advice regarding the proposed 'Town Street Beautification - Charles Street, Coonabarabran'.

We support such a proposal and believe that this action will not only improve the street scape but as the trees grow this will provide protection and shade from the heat of the sun to some of the dwellings and pedestrians in Charles Street.

Regards

I must me to leave my reply
to the last minute Sorry.

I love your idea of Charles St
beautification.

my suggestion is for Australian
black boy's ~~shrub~~ shrub & a wattle
tree

Should not take too much
water & would be beautiful &
different with wattle flowers in
spring; Golden Orest Wattle

Thank you

address as above
