## **Part 2: Council’s Operational Plan & Delivery Program**

### **2.1. 2020/21 Budget and Delivery Program Highlights**

#### **Introduction**

Council’s *Long Term Financial Plan*, the 2012/13 *TCorp Financial Sustainability of the New South Wales Local Government Sector* and *Fit for the Future Report* has identified many financial challenges faced by Warrumbungle Shire Council and other similar sized rural Councils. The TCorp Report which is an independent review of Council’s finances deemed Council’s financial sustainability rating to be “weak” and outlook to be “negative”. It is clear from these documents, one developed internally by Council staff, and the other two by an external agency that Council faces many challenges ahead.

Although Council has continued to make considerable progress in addressing its long term financial position, the fact remains that there are external influences outside Council’s control that impact on Council’s financial position. These include:

- The fact that Warrumbungle Shire Council is a sparsely populated rural local government area (LGA) with a large transport infrastructure network and no corresponding economies of scale;
- An ageing but stable population;
- Cost shifting by other levels of government;
- Difficulties recruiting and retaining staff in a competitive market;
- Revenue constraints such as rate pegging; and
- Council’s reliance on grant funding.
- Possible extension to freezing of Federal Assistance Grants (FAGS) by the Commonwealth.

It is under these constraints and considerations that the 2020/21 Operational Plan (budget) and 2020/21 -2023/24 Delivery Programs have both been prepared.

## Budget and Delivery Program Highlights

Features of Council's Budget and Delivery Program include:

- Operating deficit before capital grants for 2020/21 is \$2.55m;
- An unrestricted cash budget deficit of \$1.4m in the 2020/21 financial year ;
- A combined unrestricted cash deficit of \$5.1m over the four years of the Delivery Program, and Council's cash at bank will decrease by \$0.5m (\$9.3m to \$8.8m) by the end of 2020/21;
- An ambitious capital program over the four years of \$54m;

Despite the continuing challenges that Council faces, Council's four year Delivery Program seeks to achieve the following major capital works:

- RFS Enhancements and vehicles - \$4.8m
- Operating Plant replacement of \$7.2m;
- Resheeting and resealing of local sealed roads - \$7.28m;
- Regional Roads rehabilitation and resealing - \$7.74m;
- Town Streets - \$2.57m;
- Warrumbungle Water - \$7.1m;
- Warrumbungle Sewer - \$12.3m

The capital deliverables above are in addition to Council's normal operations which include:

Transport services including the management, and maintenance of over 2,600 km of roads, 128 bridges and bridge sized culverts, an extensive network of culverts and other drainage assets, kerbs and gutters, footpaths, and quarries;

Aged care, child care and youth related services, including Warrumbungle Community Care, Yuluwirri Kids and Connect Five supported play groups;

The management, and maintenance of a range of buildings and structures from town halls, playgrounds, community facilities, and meeting rooms, to aerodromes all of which provide valuable services to the community;

General rehabilitation of town streets including improving street lights, replacing bins, gardens construction of cycle ways and planting of trees;

Promotion of economic development and tourism within the Shire;

Provision of water, sewerage and waste services to the residents of the Shire;

Town planning, regulatory services, town beautification and environmental management;

Emergency services;

Library services;

Road safety programs;

Management of Public Cemeteries;

Provision of ovals and other sport and recreation facilities including pools and parks;

Health, environmental and emergency bush fire services.

## Fit for the Future

The Fit For the Future (FFF) initiative was implemented by the NSW State Government through their Office of Local Government (OLG) to ensure the long term sustainability of all local government councils. The initiative required councils to demonstrate that their operations fulfilled a number of requirements or to demonstrate how they would change operations to meet those requirements. Failure to do so could see the Council enter administration or be amalgamated.

The Warrumbungle Shire Council was deemed FFF in December 2016 with a plan focusing on sustainability through incremental improvements.

With the goal of Council to provide the Warrumbungle community greater benefits in an efficient, effective and sustainable manner, Council sees the FFF process as a perfect opportunity (and sounding board) in moving forward and further improving Council's financial performance and position. Council's strategy to remain FFF is based on a plan of continuing vigilance over external and internal factors such as:

- Operational efficiencies
- Service levels and requirements
- Productivity
- Outsourcing
- Economies of scale
- Review of Fees and Charges

To this end Council has implemented a process whereby "Improvement Action Plan" (IAPs) documents are prepared, reviewed and considered by Council prior to being recommended for implementation. Where appropriate, some of these IAPs have already been incorporated directly into the budget, while others maybe separately identified as further FFF adjustments due to the difficulty in allocating certain savings to the relevant area at this point in time.

Unfortunately, the deterioration in local government funding environment most recently due to lessening Grant Funding (due to higher competition, the growing need for co contribution and reduced availability) which means that Council must now cut harder, faster and seek new revenue to improve its financial performance going forward.

## 2.2 Income Statement (2021/22 – 2023/24)

	2020/21	2021/22	2022/23	2023/24
	\$'000	\$'000	\$'000	\$'000
<b>Income from Continuing Operations</b>

## 2.10 Key Performance Ratios

Council generally measures its financial performance against a suite of KPIs some of which are prescribed by the Department of Local Government (DLG) while others although not prescribed are included by Council as Council believes they are relevant in explaining and measuring Council’s financial performance and position. Details of these ratios and Council’s historical and forecast performance can be found below. They assume the further fit for the future adjustments are adopted by Council.

### Cash and Investments Balance

#### Description

This ratio shows Council’s cash and investments balance.

#### Comments

As can be seen from the chart to the right, Council’s cash and investments balance is forecast to increase from \$9.303m in 2019/20 to \$11.164m during the Delivery Program period as Council catches up on Capital Projects.

### Operating Surplus/(Deficit)

#### Description

This ratio shows Council’s operating surplus or deficit (which includes non-cash items such as depreciation).

#### Comments

Council is expected to record a combined surplus of \$10.46m over the four years. The 2020/21 financial year is expected to generate a small surplus of \$2.5m, inline with estimate for 2019/20. 2021/22 estimated surplus is \$6.3m due to higher capital grants of \$8.61m. Final 2 years are forecasted to generate a surplus of \$1.39m and \$0.28m due to decreased Capital Grant. This is based on a very conservative forecast that Council will only receive minimum Capital Grants from 2020/21 onward and make no Operational Savings.

**Debt Service Ratio**

**Description**

This ratio assesses the impact of loan principal and interest repayments on the discretionary revenue of council. The OLG considers a ratio of greater than 2% as satisfactory.

**Comments**

The Delivery Program period shows an overall increase in the ratio, with significant increase in FY 2023/24 as the result of higher surplus and lower loan repayments. Overall, it remains well above 2%.

**Total Borrowings**

**Description**

This shows Council’s total level of borrowings

**Comments**

The level of borrowings will be decreased over the Delivery Program period i.e. from \$2.9m in 2020/21 to \$0.47m in 2023/24.

**Rates and Annual Charges Coverage Ratio**

**Description**

This ratio assesses the degree of Council's dependence upon revenue from rates and annual charges and the security of Council's income. OLG considers a ratio of less than 10% as unsatisfactory

**Comments**

Council, as with most other rural Councils is reliant on grant funding to fund its operations and rates and charges revenue represents only around 47% of Council's total revenue base (average over four years of the Delivery Program). This ratio is inversely affected by Grant funding so as Grant funding increases then this ratio worsens albeit that the actual amount may rise.

**Unrestricted Current Ratio**

**Description**

This ratio assesses the adequacy of working capital and its ability to satisfy obligations in the short term for the unrestricted activities of Council. OLG considers a ratio of less than 1.5 as unsatisfactory

**Comments**

Council's unrestricted current ratio is expected to remain stable over the life of the DP, staying well over 1.5 except for 2021/22 due to lower cash balance mainly because of increased capital expenditure of \$20.16m.

**Building and Infrastructure Renewals Ratio**

**Description**

This ratio assesses the rate at which building and infrastructure assets are being renewed relative to the rate at which they are depreciating. A ratio of less than 100% is unsatisfactory, although the NSW mean has ranged lower than 100% over the last 3 years.

**Comments**

Council's renewals ratio is forecasted to peak at 109% in 2019/20 while it falls to 63% in 2023/24. Council's DP shows consistent Renewals ratios averaging at 65% for the OP/DP. This however, highly subjects to completion and revotes.
