GENERAL MANAGER'S REPORT

ANNEXURE 1

1.1 Staff Awards 2011

Applications for the quarterly staff awards closed on the 30 June 2011 for the third quarter nominations. Previous recipients of this award this year have been Chris Staniforth and Lisa Grammer.

Again this quarter there was a pleasing number of nominations received and considered against the criteria at a special meeting of MANEX. After a shortlist was created and much discussion, MANEX have recommended that Peter Wasley who is the Supervisor for Waste and Recycling be awarded a Warrumbungle Council Employee Excellence in Achievement Award.

Council and Staff congratulates Peter Wasley on his nomination and subsequent award.

The following nominations were also received and considered and congratulations are extended to these dedicated staff members:

- Kelly Dewar Records Officer
- Craig Hynds Grader Operator
- Randall Michael Supply Officer
- Trish Sawyer Senior Expenditure Officer
- Chris Staniforth Supervisor Mechanic's Workshop
- John Walden Supervisor Road Construction
- Frances Perry Safety Officer
- Richard Clarke Recycling Officer
- Bianca Dumas Creditors Officer

Nominations will be considered for the current quarter nominated and following quarter before making way the next intake of nominations.

RECOMMENDATION

That Council accepts the recommendation from MANEX and presents Peter Wasley with a Warrumbungle Council Employee Excellence in Achievement Award.

1.2 Amendment to Organisation Structure

The Consultative Advisory Committee at its meeting held on June 23, 2011 has now endorsed an amendment to the Corporate Services structure and that amendment relates to the position of Sub Accountant and Administration Trainee based in Coonabarabran.

• The addition of the Sub Accountant position offers the opportunity to plan for the future and ensure the department can continue to operate effectively should staff be on sick leave or annual leave. As there is several current staff in finance that

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 5

have an extremely high number of annual leave hours owed to them and due to workload have been unable to take this leave the new position will enable these staff to take leave without important work being neglected.

• The addition of the Administration Trainee for a period of two years will ensure an opportunity is offered to a young person within the Shire to attain a Certificate IV in Business Administration within the two years. Upon completion of the two year traineeship another young person can be offered the same opportunity.

The amended structure for Corporate Services is now submitted for Council's consideration.

RECOMMENDATION

For Council's consideration and endorsement of the attached amended Corporate Services structure to include the new positions of Sub Accountant and Administration Trainee.

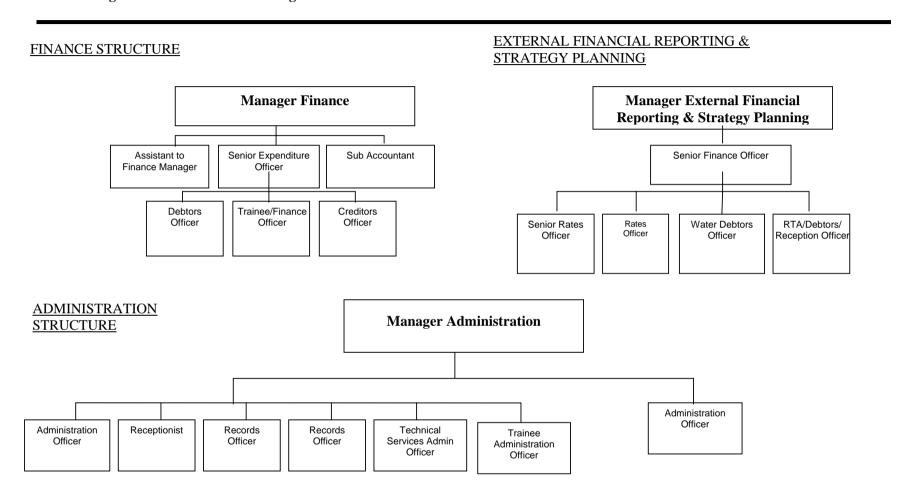

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 6

1.3 Organisational Change to Executive Services Structure

Warrumbungle Shire Council currently employs approximately 210 staff. At this time there is no dedicated HR staff member responsible solely for the organisation's learning & development area. Some of these tasks are currently undertaken by both the HR Manager and HR Officer as time permits. There is no in-house training conducted due to staff numbers and time restraints.

The Award requires all staff to have a training and development plan in place. Training plans identify skills shortages and succession planning for the future.

Councillor Lewis' Notice of Motion in the July 2011 meeting "That Council employs or contracts an accredited trainer to increase the skill levels of our outdoor (road) crews to help improve the situation" highlights the need to address training and is acknowledged.

To ensure process improvements and to foster a well trained workforce, a dedicated Learning and Development Officer is needed for the organisation. This staff member will be responsible for developing and managing a framework and provide training for both indoor and outdoor staff to ensure Warrumbungle Shire is at the cutting edge of new skills and techniques.

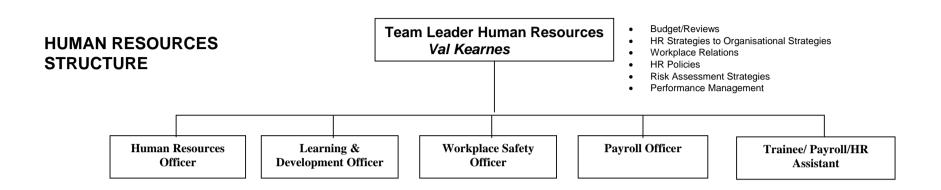

This position would be responsible for but not limited to:

- Maintain appropriate records to enable the monitoring of Apprentice and Trainee progression by liaising with the training providers, the Australian Apprenticeship Centre and employees
- Contribute to the Workforce Management Plan
- Monitor, administer and report on budget expenditure as part of the corporate training plan
- Provide on site visits to staff to discuss training requirements and succession planning
- Conducting in house training in various areas of customer service, some software and new Council policies and procedures
- Liaise with external training providers to secure quality training programs that meet legislative requirements.
- Create and maintain a Learning and Development training calendar for publication within the organisation.

RECOMMENDATION

That Council approves the establishment of the position of Learning and Development Officer within Executive Services. This position will be added to the Organisational structure subject to the Consultative Committee recommendation at its meeting on September 1, 2011.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 9

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 11

- Supervisor Water and Wastewater South Currently filled as higher duties by employee
- Youth Development Officer Awaiting Council's recommendation
- Director for Corporate Services Filled by Contractor until September 2011
- Director for Environmental Services Filled by Contractor until Organisation Structure review
- Pool Supervisor Mendooran Filled by casual until Organisation Structure review
- Manager Water & Sewer Under consideration of location & package

Over the past several weeks we have been inundated by phone calls and non specific applications for employment which we have welcomed, acknowledged and directed to the website for information on Council's currently advertised positions.

Applicants submitting resumes have been advised that we will match their resumes to vacant positions if possible and will contact them for more information if required.

RECOMMENDATION

For Council's information.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 12

1.5 Central West CMA

Council is in receipt of a letter from the Central West CMA extending an invitation to the next Councillor and Executive Luncheon Seminar and seeking an opportunity to make a presentation to Council, as follows:

The Central West Catchment Management Authority (CMA) recognises the importance of its collaboration with catchment Council's, primarily through the Local Government Reference Group and the Salinity & Water Alliance Forums. However, the Central West CMA Board and staff also recognise the need to keep both Councillors and senior management, who do not attend these meetings, informed of natural resource management initiatives across the catchment.

To this end, we are requesting that over the next few months, we be given an opportunity to make a presentation to Council.

It is envisaged that one of our staff, accompanied by a Board member, would give Council a short PowerPoint presentation covering such things as the Central West CMA's investment in the LGA, Reference Group and Alliance initiatives, how Council activities assist in improving the health of the catchment, etc. This would then be followed by discussion on ways to improve and build on our relationship.

We look forward to a positive response to our request in the near future.

In the meantime, we have organised the next Councillor and Executive Luncheon Seminar on Friday 9 September – please see the attached agenda for details. This event has been planned to coincide with the Central West Catchment Month, and the topic of the seminar will be the Central West CMA's new draft Catchment Action Plan, and in particular the relationship of this whole-of-Government plan and Local Government.

Presenters on the day will be Carolyn Raine, the Central West CMA's Manager – Strategy and Planning, who will outline the content of the CAP and how it was arrived at; and Geoff Hudson, the LGSA's Senior Policy Officer – Natural Resource Management, who will expand on the relationship between the CAP and the new DLG Planning and Reporting framework.

We see this as an important event and look forward to seeing your Council well represented on the day. We would ask that you extend the invitation and forward on the agenda to seminar to all Councillors and executive staff, thank you.

Please contact Diane Kureen, the Central West CMA's Local Government Officer, via the contact details above, to make arrangements for a presentation at Council and also to RSVP for the Luncheon Seminar – please RSVP the end of August. Also contact Diana should you require any further information.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 13

A determination is now sought from Council if it wishes to invite the Central West CMA to make representation to Council in the near future and further, who will represent Council at the Councillor and Executive Luncheon Seminar on Friday 9 September 2011.

RECOMMENDATION

That Council invite the Central West CMA to make representation to the ordinary September Council meeting and further, that Council determine who will attend the Councillor and Executive Luncheon Seminar on Friday 9 September 2011.

1.6 Sister City Program - Japan

From the September 2010 council meeting Council agreed to investigate the establishment of a "sister city style" partnership with Ibara City Council in Okayama in Japan.

Ibara, while a city, has similarities to Warrumbungle Shire; it is newly amalgamated, has a proportional population to Warrumbungle Shire and is home to the Bisei Observatory – the only publicly accessible observatory in Japan. Bisei has a mirror one centimetre smaller than the 40" telescope gifted by ANU to the Milroy Observatory, noting that the Milroy Observatory will be the largest publicly accessible telescope in the southern hemisphere.

The Mayor and Team Leader attended a meeting in Sydney in May at the offices of the Japan Local Government Centre (CLAIR) to progress this project. The Director of CLAIR was travelling to Japan the following week and would meet with the Mayor of Ibara-Shi on our behalf, presenting our case for the partnership.

From that meeting, and the Director's visit to Japan, came an invitation for the Mayor of Warrumbungle Shire Council to join a local government exchange team attending the equivalent of the LGSA Conference in Tokyo in November. It had been planned that CLAIR would then take the Warrumbungle Shire representatives to IBARA to meet with the local government representatives. In the meeting at the CLAIR office it was made clear that culturally it was not acceptable for representatives to have their spouses or partners travel with them; business is taken seriously and not mixed with pleasure.

IBARA-SHI has confirmed their willingness to participate in an exchange with Warrumbungle Shire. Mayor Shinton indicated that he has another long term family commitment during the period of the conference in Japan and would not be able to attend. This has been communicated to CLAIR. IBARA is anxious to proceed with this project and has suggested that consideration be given to meeting with representatives of Warrumbungle Shire in Ibara in October. October 10th is a national holiday in Japan but they have indicated that they could meet on the 11th and the 14th October and have set those days aside to show people around and discuss the benefits and activities of the partnership; school and business visits will be organised as well as visits to Bisei and the national park that surrounds the area.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 14

Council will need to make decisions at the August Council meeting about the composition of the delegation that they wish to send to IBARA-SHI. There are specials from time to time that make return flights approximately \$650. There will be some local travel and accommodation costs to be met but IBARA had previously indicated they were happy to home host guests for a couple of nights.

The nominees may need to await the outcome of the 2011 Mayoral Election.

CLAIR will continue its important role of coordination with IBARA-SHI.

RECOMMENDATION

- That Council confirms its intention to CLAIR to establish a "sister city" style partnership with IBARA-SHI and accepts the invitation to meet with the Mayor and staff of IBABA-SHI on 11th and 14th October 2011.
- That Council determines the composition of the delegation to travel to IBARA-SHI and confirms the dates of travel with CLAIR.
- That Council establishes a budget for this project by way of a supplementary provision.

1.7 Linton Bridge - Coolah - 50 Years

In July Mrs Carol Richard of Coolah wrote to Council informing that the 50th Anniversary of the opening of the "Coolah Bridge" will be on 21 September 2011. Mrs Richard is wondering if Council would like to commemorate this anniversary in some way and suggested that the bridge be assessed for possible maintenance/painting after this length of time.

The following information is provided by Mrs Richard:

The Mudgee Guardian reported that during the last day of February, 1955, the rainfall registered in the Coolah Valley varied between eleven and seventeen inches (275mm to 430mm). At Old Castle near Leadville, fourteen and a half inches fell in thirty-six hours.

There were also heavy falls of rain on the Talbragar River catchment which resulted in the approaches of the smaller bridge at Denison Town being washed away plus the destruction of the half mile length of the eastern approach of the Craboon-Coolah railway bridge over the Talbragar River near Craboon.

The Coolaburragundy River reached its highest level within living memory. Severe damage was caused to the Craboon-Coolah railway line. A train and a number of bulk trucks were stranded at the Coolah station. The water rose so high in the yard that it flooded the bulkhead where a large quantity of wheat had been stored. This was contrary to the survey taken in 1919 that the station yard would be quite above any local flood

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 15

level that is likely to occur. Several houses in the vicinity of the station were partially flooded.

The bridge over the Coolaburragundy River on the Coolah – Cassilis Road was washed away, its wooden structure being deposited upside down on the adjoining lucerne paddock. The remains had to be completely dismantled before it could be moved. At the same time, acting Shire Engineer, Vince Brassil said "little could be salvaged of the bridge remains for patch work." The destroyed bridge was the second structure erected at this crossing.

Within a few days of the bridge being washed away, a "flying fox" was erected across the still full flowing river, to be used for emergency purposes. One person wishing to enter the town from the Oban side feared to use the flying fox and preferred a ten mile walking circuit via the railway bridge at The Rock.

The fact that their bridge had been washed away was not a surprise to the locals. In October 1954, the Coolah and District Progress Association had informed the Coolah Shire Council that the present structure was dangerous to fast moving and heavy traffic. It was too narrow for all farming machinery to access. Every time the river flooded, there was grave concern in the community that the bridge would be washed away completely.

By mid April 1955, piles had been driven on the site of the old structure for the erection of a temporary Bailey Bridge which was to be especially delivered from England. The Department of Main Roads contributed the sum of 6,000 pounds (\$12,000) towards the cost of the supply and erection of the temporary structure. In the same month, April 1955, a contour survey had been completed of a site a little upstream for the erection of a new concrete/iron bridge.

The new bridge was officially opened on 21 September 1961 by G.H.Linton, Divisional Engineer of the Department of Main Roads from Tamworth. An official luncheon was held at Johnson's Coolah Hotel (now Black Stump Inn) to celebrate the occasion. The cost of constructing the steel truss/concrete bridge and approaches was 60,000 pounds (\$120,000), supervision being by Shire Engineer, Frederick Roy Kelley and construction by Alex Gore who at the time was residing at Brown Springs, Coolah.

RECOMMENDATION

That Council determine if it wishes to mark this Anniversary.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 16

1.8 Black Stump NSW

Council has received a request from Mr Kevin Bourne for permission to use material from a leaflet published by the previous Coolah Shire. Mr Bourne's request and additional information follows:

Through the courtesy of Mr. R. Cameron, Shire Clerk of Coolah, we are permitted to quote from an interesting leaflet published by the Shire.

I have been trying to contact the Shire of Coolah and have now been advised of the council amalgamation. So I am redirecting my enquiry to you.

A few years ago I had access to a book which dealt with place names and under "BLACK STUMP NSW" quoted from a leaflet published by Coolah shire. Apparently at the time Mr. R. Cameron was the then Shire Clerk. The editor of a newsletter published by Melbourne Walking Club has expressed a keen interest in using information from the leaflet. I wonder whether you would permit similar useage of the material (which would be gratefully acknowledged of course).

I will attach a copy of the information gleaned from the book, the name of which I have no record...

'There is evidence that several wayside inns existed in the Coolah Shire area. These were needed for travellers along the long road routes. The best known was the Black Stump Wine Saloon situated near the Gunnedah road, six miles from Coolah. It was the staging post for north-western New South Wales. The importance of this inn resulted from its position at the junction of the old coach roads. It was also a resting place on the old Sydney stock route before passengers entered the rough country in the last leg of the journey.

'The position of the inn is clearly marked on old New South Wales Lands Department maps and like many a pub before and since, it became the hub from which men dated their journeys and gauged their distances ... The saloon was named after the nearby Black Stump Run and Black Stump Creek, both of which derived their names from the local saying of "beyond the Black Stump".

'In 1826 Governor Darling proclaimed "limits of location" or boundaries "beyond which land was neither sold or let" nor "settlers allowed". This boundary was located in 1829 as being the northern side of the Manning River up to its source in the Mount Royal Range, then by that range and the Liverpool Range westerly to the source of the Coolaburragundy River, then along the approximate location of the Black Stump Run, then in a south-westerly direction to Wellington.

'Land north of this location was referred to as land "beyond" and the use of the word "beyond" can be found in the Government Gazette of 19th January, 1837.

RECOMMENDATION

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 17

For Council's determination.

1.9 Financial Assistance Requests – August 2011

At the ordinary March 2011 Council meeting Council adopted the Policy, Financial Assistance to Others. In this Policy it states that Council will consider applications for financial assistance at the ordinary meetings in February and August each year with a complete Policy review in February each year.

Below is a listing of the applications received for consideration at the August Council meeting:

Late Application		
Coonabarabran Masonic Lodge	\$800	To paint exterior walls of the Masonic
		Building in Cassilis Street Coonabarabran.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 20

RECOMMENDATION

For Council's determination.

1.10 Australia Day January 2012

A very successful and hot Australia Day 2011 included an event hosted in each of our towns. Again the functions were held in each of the six towns and included a Breakfast at Binnaway and Mendooran, Morning tea at Baradine, Lunch at Dunedoo and the evening activities at Coolah and Coonabarabran which included a dinner or BBO.

Warrumbungle Shire Council participated in the Australia Day Ambassador Program and hosted two Ambassadors within the Shire.

Individual and team local awards were administered and awarded by each organising committee group. The communities have taken ownership of their own categories of awards which include Certificates of Recognition, Group Community Service and Sports Team of the Year Awards.

The organising committee varies in each community. The Hospital Auxiliary in Baradine, the Development Groups in Coolah, Dunedoo and Mendooran, the Progress Association in Binnaway and the Chamber of Commerce in Coonabarabran provides the basis for the host Australia Day Committee which includes the Public Liability Insurance umbrella. Members of the community and other local organisations are also invited to participate in this committee with the Development Coordinators assisting as necessary. Other service organisations such as Lions and Rotary for catering and Schools, Lands Council or Girl Guides are involved for the event program support.

Council provides a small contribution to each committee to cover the advertising, and frames or laminating of local awards and catering. The amount allocated in 2011 was \$300 each for Binnaway, Mendooran, Baradine, Dunedoo and Coolah. The Coonabarabran Rotary Club had made a budget submission re Australia Day catering in 2011 and was allocated a contribution of \$500 for Coonabarabran. There was an understanding that the town which hosted the award for the Warrumbungle Shire Council Citizen of the Year was to receive an additional donation of \$100, however no record of this has been made via Council resolution. The total budget allocation for Australia Day in the 2011-2012 Management Plan is \$4,000 that covers the hosting of two (2) Ambassadors and the Australia Day Committee contributions in each town.

The Shire Awards included; Citizen of the Year, Young Citizen of the Year, Senior Citizen of the Year, Sportsperson of the Year and Young Sportsperson of the Year Awards and were administered and awarded through Warrumbungle Shire Council.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 21

Feedback from the Development Coordinators and local organising groups is very positive with this current format.

Council consideration is now sought for the arrangements for the 2012 Australia Day functions throughout the Shire and if it wishes to participate in the Australia Day Ambassador Program for the 2012 Australia Day Celebrations.

RECOMMENDATION

- 1. That Council participates in the Australia Day Ambassador Program in 2012 hosting two (2) Ambassadors
- 2. Council administers and presents the following awards for Australia Day 2012;
 - i. Warrumbungle Shire Council Citizen of the Year
 - ii. Young Citizen of the Year
 - iii. Senior Citizen of the Year
 - iv. Sportsperson of the Year and
 - v. Young Sportsperson of the Year Award
- 3. Council provide a contribution to each local organising Australia Day Committee in Baradine, Binnaway, Dunedoo, Coolah and Mendooran an amount of \$400 and Coonabarabran \$500 with the host community of the Warrumbungle Shire Council Citizen of the Year receiving an additional \$100 towards the function catering.
- 4. Council pools be opened free of charge throughout the Shire on Australia Day 2012 as in past years.

1.11 Family Friendly Time in Lieu Policy

The Warrumbungle Shire Council Consultative Committee at its March 2011 Meeting considered the Policy - Family Friendly Time in Lieu.

The Committee approved the policy subject to a minor change to Point 8; that being 15 minutes.

The Policy is attached for Council's consideration and endorsement.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 22

Family Friendly Time in Lieu Policy

To ensure and facilitate a family friendly workplace.

This Policy is an attachment to the Nineteen Day Month Indoor Agreement and does not apply to these employees under the Nine Day Fortnight Outdoor Agreement.

This policy is not to be used to implement any permanent shift from normal core working hours.

Policy

- All staff shall be provided with access to overtime and TIL provisions of the Award when required to work time in excess of normal working hours.
- 2 All TIL will be accrued at normal hourly rate.
- The benefit of working overtime or TIL must be based on organisational need including urgency and value of return prior to approval.
- 4 All overtime and TIL must be pre-approved before working by the Supervisor, Manager, Director or General Manager. The exceptions are any nominated Council Officer by way of written delegation from the General Manager.
- 5 All Award entitlements will be paid for emergency call outs without preapproval.
- The employee will be provided with the option of having the approved additional time worked paid as overtime or exchanged as TIL. If accepting TIL the employee accumulates all time at the base rate for that position.
- Where overtime is required equity must be considered when distributing work across groups of employees with equal ability to perform such duties.
- 8 The minimum time worked to accumulate TIL shall be a total of fifteen minutes within a one day.
- 9 The minimum time worked to be paid overtime shall be a total of fifteen minutes within a one day.
- Team, equity and fairness to work colleagues and organisation outcomes will be required to be considered before a request for the accruing or taking of TIL is approved.
- 11 Credits for TIL may not accumulate beyond a maximum of five (5) days without mutual agreement with the Manager, Director and the employee.

 Where there is an excess of five (5) days accumulated TIL efforts, through

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 23

- consultation with the Manager and the employee will be made to reduce credits back to below five (5) days within a three month period.
- Where regular or consistent overtime is required for a position, due to the nature of the duties, site/project agreements can be entered into. Similarly, remuneration may be annualised.
- TIL will not be paid out and must be taken as leave. The exception to this arrangement will be when an employee resigns and it is not possible for the employee to access such leave before their termination date.
- All TIL and overtime will be recorded on timesheets and processed through the payroll system to ensure accurate records are maintained.

Definition

For the purpose of this policy an emergency is defined as a situation that requires immediate attention of the employee to ensure the safety and welfare of employee(s), or the public. This includes the safety and protection of Council and public assets and facilities.

RECOMMENDATION

That Council endorse the Policy – Family Friendly Time in Lieu for the indoor staff of the Warrumbungle Shire Council.

1.12 Water Summit 2011

The 2011 Water Summit was held on 20th and 21st July 2011 in Sydney and was attended by Council's Town Planner, Jane McIntosh. Speakers shared timely strategies to grow Australia's \$90 billion water business, while streamlining supply and demand across cities, towns and regional areas.

How to manage resources during climate change

The governments approach to managing water during climate change is a three tiered approach – mitigation, adaptation and international engagement. The mitigation aim is to keep the temperature increase below 2 degrees over the next decade. Even if this goal is achieved, adaptation measures will still be required. They are currently developing a study through AECOM on securing long term water supplies, which should be available at the end of this month.

The more water is becoming recognized as a valuable resource, the more valuable water has become. The government has given water a dollar value which allows people to trade water and property rights. Water sharing plans have been put in place with an allocation strategy (both high security and general security products). Approximately 95% of water extracted in NSW is now part of a water sharing plan. The next steps for the NSW Office of Water are to look into and complete strategies on:

1. Commonwealth Basin Plan

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 24

- 2. Implement plans and licenses etc with a commitment to compliance
- 3. Trading

Northern Victoria Irrigation Renewal Project is looking at managing water used for irrigation by reducing the 6300km chanel network through northern Victoria, reducing seepage and leakage losses (for example by using plastic lining in irrigation channels), implementing a total channel control system and using new modern connections to service increased areas. Areas that never should have been irrigated are being looked into with a goal of reducing the irrigated area in northern Victoria by 50%. Cotton Australia are also implementing measures to maximize production through water by improving the efficiency of water use. A study was done on the different types of irrigation (drip, furrow, bankless, lateral) and the effects of each.

It is important that consumers of water are aware of water restrictions and aware of how they can minimize their water usage. This can be a focus of local Council's and water companies. In south east Queensland the average water use per day was 300L per person before the drought and has been reduced to 140L per person per day through making the community aware of how they can reduce consumption.

Recycled water needs to be further looked into. Western Water Company recycle up to 85% of their water and use it for car washing, toilet flushing and gardening. Their community did not want to use it for drinking. They also have an initiative to improve water efficiency in the home by getting the local plumber to come and fix shower heads, toilets, taps, etc and the bill is added to the water bill so consumers don't have a huge up front cost. Yarra Valley Water (north/east suburbs of Melbourne) mandate the use of recycled water.

Volatile weather conditions (floods, droughts and bushfire)

There was a presentation from Ian Maynard, CEO of Queensland Urban Utilities who spoke about the largest water transfer in Australia where they took over 18,000km of water and sewer pipes and 990,000 residential customers in south east Queensland. He spoke about the devastating effects of the Queensland Floods and the emergency measures that were required to be put in place, costing approximately \$63 million.

Pressures to protect Australia's most precious resource – water

The ACT water corporation ACTEW has implemented measures to secure water for the nations capital, Canberra. A government taskforce was put together to enlarge Cotter Dam in the ACT's most productive catchment. They also implemented a Murrumbidgee to Goodong River transfer pipeline in NSW (with the pumpstation in ACT).

It is important that technology is utilitised to its potential to identify key issues and in turn protect Australia's water resource. There are satellite mapping techniques and other mapping techniques used which determine rock types, acquifier depth, water temperatures and which/how aquifiers intersect. These are used in the gas, hydro thermal, environmental, and coal industries.

Alternate sources need to be further researched such as desalination plants. South East

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 25

Queensland Water have a desalination plan which is utilized only when required. This was utilized during the recent Queensland floods. They have a range of different water sources and have their infrastructure set up so that they can use the most effective water source at any point in time.

It was noted that maintaining the rights of farmers is important and should be included in any plans that are set up.

RECOMMENDATION

For Council's information.

1.13 Request For Leave of Absence – Councillor Dissanayake Background

A letter was received from Councillor Dissanayake dated 17th August 2011, advising that he is unable to attend the ordinary meeting of Council on 25th August 2011 and requesting Leave of Absence.

Issues

Should a Councillor not attend three consecutive meetings without being granted leave of absence, they can no longer hold office.

Option

Council has the option of granting leave of absence or accepting the absence as an apology.

Financial Considerations

There are no budget implications resulting from this request.

RECOMMENDATION

That leave of absence be granted to Councillor Dissanayake for the meeting to be held on 25th August 2011.

1.14 Meeting with Electoral Commissioner 15th August

On Monday 15th August the General Manager travelled to Moree to meet with Electoral Commissioner, Colin Barry and his assistant Terry Jessop to discuss the pros and cons of Councils conducting the 2012 Local Government Election. Commissioner Barry has adopted a very hard line and informed the meeting that Council's choice is to opt for the Commission to conduct the election or run it themselves. If the latter option is chosen there will be no assistance from the Commission.

Commissioner Barry indicated that he would circulate further and better particulars prior to the August council meeting and it is anticipated that the information will be tabled for councillors consideration at the meeting.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 26

Councils are required to inform the commissioner of their chosen position by 30th November 2011.

RECOMMENDATION

For Council's information.

1.15 Management Plan Report – June 2011

Attached is a report on the Management Plan for the fourth quarter ending June of the 2010/2011 financial year. You should be able, through the page numbers, to reference this report against the undertakings in the Management Plan.

RECOMMENDATION

That Council note and receive the report.

STEVE LOANE GENERAL MANAGER

PAGE	ACTIVITY	PERFORMANCE	
NO.	710117111	TARGET	PROGRESS UPON REVIEW
	Technical Services	To provide technical advice to the division, the organisation and the Council.	Attendance at town committee meetings in early April was a feature, with many requests for follow up works received. Also, preparation of the budget was a feature of the quarter.
			There is some concern with Council's capacity to successfully manage external works, that is, private works, particularly in relation to works meeting expectations of the client and the clients willingness to pay. Supervisors have been instructed to treat requests for private works with extreme caution.
			Several design project nearing finalisation have been held up because of staff changes. In particular the Cowper Street drainage project and the Teridgerie Creek stabilisation project. Tender documentation was prepared for concrete works associated with Teridgerie Creek.
			The construction of the Yuggel Creek bridge was mostly completed during the quarter and the outcome is meeting expectations.
			Development of a flood study and flood management plan for Baradine stalled during the quarter with discussions being held with Consultant about variations to the project.
	OH& S Risk Management	Support an effective OH&S and Risk Management programme to ensure a safe and healthy work environment for all staff and the public.	Training of staff is supported as required. OH&S is a set agenda item at Supervisors meetings and discussed at Managers meetings.

Mr Steve Loane General Manager Warrumbungle Shire Council John Street COONABARABRAN 2357

Dear Sir

ACTING DIRECTOR OF CORPORATE SERVICES

ANNEXURE 2

2.1 Investment Securities – CDOs And FRNs

Council resolved on 16 June 2011, to engage Structured Credit to provide valuation advice and comprehensive risk analysis early in the new financial year. Further, that the General Manager be authorised to establish a sell price for various securities and when obtained in conjunction with the Mayor and Deputy Mayor to sell those products.'

As background for this decision process, the General Manager sought further advice from Structured Credit, and a copy of the Report received by Council on Tuesday 19 July 2011, is now provided to Council.

The Mayor, Deputy Mayor, General Manager and Acting Director Corporate Service met that same day with the consultant, Jason Woodard and discussed the Report he had prepared. The content and advice provided by Jason Woodard was discussed comprehensively.

The view provided by Structured Credit was to confidently express the risk of default as less than 2 percent. Another way of expressing this view is to say that all of the securities held by Council will be recouped at par (face value) with a 98% level of certainty.

During the discussion, it became clear that while all securities were expected to realise par at maturity, some confusion surrounded the potential to pay above par. Question and answer followed, and in summary it was agreed that in regard to the All Seasons (Nomura Bank) Securities, further investigation of locking in a capital appreciation (payment above par) be pursued.

Inquiries through the Hong Kong branch of Nomura Bank, led to confirmation that on maturity, locked in capital appreciation of \$60 000 would be attributable on the All Seasons Note. This type of information has not been made available before and is critical to a decision to sell or hold this security.

Therefore, the engagement of Structured Credit has already paid dividends.

To allow a watching brief on the question of selling or holding these securities, Structured Credit were asked to examine 'fair value' bid prices and associated brokerage fees, and by relating the expected value at maturity construct a pricing model that Council

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 124

could inspect actual bid prices or term deposit (very secure) rates of interest to check the merits of the situation.

Simply put, if Council was offered an above average rate of interest on a term deposit by an Australian Bank, then it could estimate the 'bid price' it would need to receive to break even. In which case it could bail out of the security at that point if it chose to do so.

This will allow the General Manager to establish clear criteria with regard to the sell or hold decision.

An extract from this decision model is attached to the report as Annexure A.

RECOMMENDATION

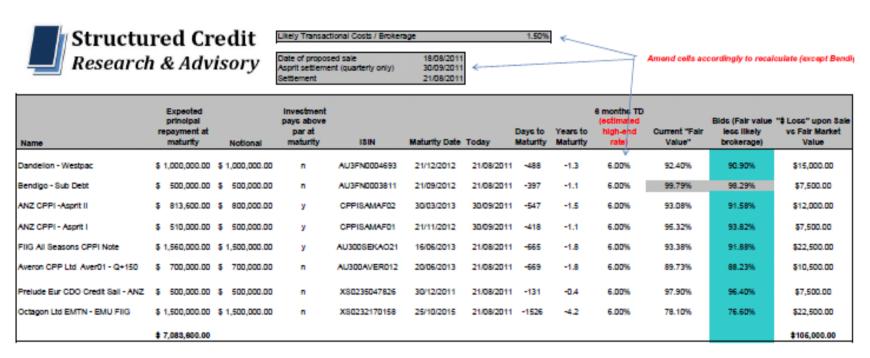

That Council:

- 1. receive the Investment Research Report provided by Structured Credit
- 2. Leave in place the delegation to the General manager to sell or hold these CDO and FRN securities, and
- 3. Appoint Structured Credit Research and Advisory Pty Ltd as advisors to Council in regard to both short and longer term investment advice.

Attachment A – Current CDO and FRN Pricing Decision Model following:

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 125

ATTACHMENT 'A'

2.2 Report On Financial System

This report serves to update Council in regard to changes made to the financial system. Further, it addresses the several remaining issues that will need to be handled over the next six (6) months.

Changes to the Chart of Accounts

Advice was received from the Department of Premier and Cabinet dated 29 June 2011, that provided authority to Warrumbungle Shire Council to combine into two funds the several water and sewerage funds it had previously maintained.

Council resolved, as part of adopting its Management Plan and associated Revenue Policy to seek this authority from the Government.

At that same time Council considered a report from its Auditors suggesting that this move would be supported.

Since that date a new Chart of Accounts has been created in the General Ledger for Water and Sewerage activities. This required a comprehensive examination and translation of the old accounts to the new accounts. It was completed for both the 2010-2011 and 2011-2012 financial years on August 9.

The format of the new chart aligns with the best practice reporting requirements of the Office of Water and the external reporting responsibilities under the Local Government Code of Accounting Practice and Financial Reporting.

While the end of financial year processing is still continuing, the new chart has provided the capacity to provide a financial position as at 30 June 2011, for the combined Water Funds and Sewerage Funds. (Annexure A).

Conditions of Amalgamation of Funds

The advice received from the State in relation to the amalgamation of the several water and sewerage funds requires compliance with four (4) conditions:

- 1. That Council pursue Best Practice Management of Water and Sewerage as per the Guidelines issued by the Office of Water
- 2. The monies previously raised from 'special rates and charges' are only used for the special purpose for which they were raised
- 3. That in relation to monies raised or yet to be raised from 'special rates and charges' such monies are used only in accordance with Council's resolution relevant to any special rate or charge
- 4. Council is able to show the community that all monies received are being applied for the specific purpose for which they were raised and are being managed appropriately.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 127

The provisions of Section 409 of the Local Government Act 1993, refer to these obligations and relate specifically to special purpose rates.

Council does not levy any special purpose rates and charges at this time nor has it raised any in relation to water and sewerage services.

Therefore the condition of immediate significance is the requirement to comply with the Best Practice Guidelines. A separate report will be provided to Council in this regard as a significant cash grant of \$ 324 690.00 has been withheld by the State until certain conditions of compliance have been met.

The combination of the water and sewerage funds has now been completed and the financial policy of the Council (Revenue Policy) amended to reflect this change.

Further Accounting System Changes

This completes the first step of several that are required to establish the Warrumbungle Shire Council's accounting and financial reporting systems on a sound footing.

The MANEX have been provided with advice in relation to the further necessary changes and the timeframes for completion.

In summary they include:

- 1. Re-designing the General Ledger Chart of Accounts to improve upon the present Chart and include the themes (directions) reflected in the Integrated Planning and Reporting framework. This should be undertaken progressively over the six (6) months to 31 March 2012. It is a sizeable piece of work and requires a competence and level of expertise that at this time Warrumbungle Shire Council does not have within its establishment. However, recruitment is now underway to place that skill within Council, applications closing on 28 August.
- 2. The Council needs to implement the Civica Asset Register. This is an essential step to allow the :
 - a) Accurate recording of asset sales and purchases
 - b) Works order creation of capital projects and the disciplines needed to manage the capitalisation process
 - c) The timely and accurate generation of depreciation expense
 - d) The timely and accurate recording of the costs of asset impairment
 - e) The handling of asset revaluation as required by the Local Government Code and AASB standards
 - f) Identification of work process, duties and responsibilities of key personnel (Accounting and Engineering)

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 128

Project Approach to Handling Change

Both of these remaining tasks involve considerable effort and complexity. Council should take a project approach to both to ensure a successful outcome.

RECOMMENDATION

That Council establish a 'project approach' towards the:

- a) Redesign of a new General Ledger and Cost Ledger Chart of Accounts
- b) Implementation of the Asset Register within the Civica system.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 129

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 133

2.3 Bank Reconciliation

Bank Accounts

In preparation for the End of Year process all bank accounts maintained by Council have been identified and as part of this process all bank account balances as at the 30 June have been confirmed with a bank audit report provided by each bank institution.

A review of bank accounts maintained by Council revealed that it holds some unnecessary accounts, these are as follows:

Commonwealth Bank - Rates Account

This account has very little activity with only 5 ratepayers depositing money on a fortnightly basis.

Westpac Bank - Cash Management Account

This account is a pre existing account set up in the former Coolah Shire Council and was used as a replenishing account with an overdraft.

Westpac Trust Fund Account

This account has very little activity with deposits only on occasion, any trust fund banking can be done into the Commonwealth Bank Trust Fund.

These accounts are in the process of being closed, the timing of closure will vary as Council has advised customers in writing of its intentions and has given them opportunity to alter their banking details.

Council has identified and reconciled all outstanding cashbook problems within the bank reconciliation module and these transactions will be finalised in August.

Investments

Two schedules of investments are now incorporated in the monthly report to Council:

- 1) Investment types CDO (Collateralised Debt Obligations) and FRN (Floating Rate Note) these will on this occasion be the subject of a separate special report.
- The second schedule will identify the On Call and Term Deposits held by Council.

New Reporting Format

A review of Council's Bank Reconciliation process revealed the need to separate the Bank Accounts, Inter Fund Accounts and the Investments.

This has been achieved by developing a new chart of accounts which is a simplification of the existing chart of accounts.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 134

The benefits of the new chart of account is the control of each section with the new accounts identifying the bank account, inter fund account and the investment individually in the general ledger, this will assist with identifying any discrepancies that may arise.

Presentation

The reporting of Bank Accounts on a monthly basis will now present information regarding two primary Bank Accounts, General and Trust.

General Fund covers all bank transactions on behalf of Warrumbungle Shire Council. Trust Fund is not part of Warrumbungle Shire Council trading operation, but is maintained in place as required by the Local Government Act 1993.

Within General Fund arrangements have been allowed for 'fund accounting' and at this time Council maintains three (3) separate funds General, Water and Sewer. Transactions between these funds are handled via automatic system journals.

As from this month Council's Bank Reconciliation and Investments will be presented in this format.

Issues of Note:

Inter Fund Accounts

A review of Councils inter fund accounts within the general ledger identified imbalances which have been corrected, it arose as a result of the amalgamation conversion of the two separate general ledger chart of accounts into the one.

Corrections have been made going back 4 1/2 years, refer to Annexure A.

Investment Accounts

A review of Councils investment accounts has resulted in corrections being made to the general ledger for errors from previous years that gave rise to negative balances, errors that date back over 4 years.

As part of the checking process of these negative balances, it was tested to ensure the validity of the corrections. Refer to Annexure B.

Reasons

- a) When the conversion occurred there were pre existing imbalances.
- b) Since amalgamation journal entries to bank accounts have occurred which created automatic system journals, in a failed attempt to correct the imbalances.

Council is now in a position to monitor the Bank Accounts, the Interfund Accounts and the Investments on a monthly basis.

RECOMMENDATION

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 135

That the Bank Reconciliation as at the 30 June, 2011 by received and noted.

2.4 Bank Reconciliation Report For The Month Ending 31 July 2011

Bank Reconciliation report for the month ending 31 July 2011 is presented to Council.

Investments

On the 5 July 2011 Council invested \$1,000,000.00 into a term deposit held by the National Australia Bank for a period of 6 months at an interest rate of 6.25 %.

This will increase investments held by Council from \$14,600,000.00 to \$15,600,000.00.

RECOMMENDATION

That the Bank Reconciliation Report as at the 31 July, 2011 by received and noted.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 145

2.5 Rates Report For The Month Ending 31 July 2011

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 148

Rates Collection report for the month ending 31 July 2011 is presented to Council.

While the collection percentage has increased from this time last year, the Department of Local Government has the view that the percentage of outstanding rates should be about 2.5% and not 5% - 8%.

The Rating Policy – Payment of Rates currently states debt collection will commence after debts are 60 days overdue, this is affecting the collection of rates and charges and need to be reconsidered.

A separate report will be submitted addressing this change to the Rating Policy.

RECOMMENDATION

That the Rates Report as at the 31 July, 2011 by received and noted.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 149

2.6 Warrumbungle Shire Council Operational 2.1 Rating Policy – Payment Of Rates

Council's rates collection is currently sitting between 5% and 8%, the Department of Local Government has the view that Council's collection of Rates and Charges should be about 2%, to achieve this result the current Rating Policy needs to be revised.

Council's Current Rating Sub – Policy is as below:

- 1. Recovery of Debts
- c) Recovery action will commence if other debts (Other than amounts due from Government Departments) are not paid within sixty (60) days unless arrangements have been entered into.

The above sub – policy has been in place since 16 December, 2010 and Council rate collection has not increased to the expected standard of the Department of Local Government, therefore a proposed sub-policy is as below:

- 1. Recovery of Debts
- c) Recovery action will commence if other debts (Other than amounts due from Government Departments) are not paid within thirty (30) days unless arrangements have been entered into.

Attached is the current Rating Policy – Payment of Rates with the amended section.

RECOMMENDATION

That Council adopt the proposed Rating Policy replacing the existing one.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 153

Operational 2.1 Rating Policy - Payment of Rates

Policy Objective:

To ensure collection of rates, charges and sundry debtors is carried out in a transparent manner and complies with the Local Government Act and Section 60 of the Trade Practices Act.

1. Recovery of Debts

- a) Recovery action may commence when rates and/or charges are not paid by the due date for each quarterly instalment unless arrangements have been entered into (in writing) to make periodical payments under section 564 of the Local Government Act.
- b) Recovery action will commence when rates and/or charges are not paid by the due date for each quarterly instalment unless arrangements have been entered into.
- c) Recovery action will commence if other debts (other than amounts due from Government Departments) are not paid within thirty (30) days unless arrangements have been entered into.

Deleted: sixty (60)

2. Agreements for Periodical Payments

- a) Ratepayers who are unable to pay rates and charges and/or water usage charges by the due date, either because of reasons beyond their control or because payment would cause hardship, may apply to enter into an agreement with Council to make periodical payments [henceforth called the 'Agreement']. The payments made under this said agreement should adequately repay the rates and charges levy.
- b) In order for such an agreement to be considered a 'Payment Arrangement' form is to be completed subject to mutual agreement of payment amounts (appendix 1). The ratepayer is to specify the dates and the amounts that are to be paid and an appropriate contact number and address must be supplied to Council.
- c) Verbal agreements shall not provide a reprieve from the debt recovery process.
- d) If a ratepayer fails to meet the terms of an agreement, the agreement shall be terminated and the full amount of the outstanding rates and charges and/or water usage and accrued interest shall be due and payable immediately.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 2011 commencing at 11.00am Page 154

Recovery action shall be taken immediately for recovery of the amount due and payable.

e) If a sundry debtor fails to meet the terms of an agreement, the agreement shall be terminated and the full amount of the outstanding sundry debt shall be due and payable immediately. Recovery action shall be taken immediately for recovery of the amount due and payable.

3. Writing off Accrued Interest

- a) Applications for writing off accrued interest under the hardship provisions of the Local Government Act 1993 shall be determined on the merits of each individual case, on the basis of whether or not the hardship criteria have been satisfied by the applicant and a proper opinion can be formed.
- b) All applications for writing off accrued interest must be made in writing.

4. Writing Off by Resolution

Rates and/or Charges (including accrued interest) or other debts can only be written off by resolution of Council.

5. Miscellaneous Debtors

- a) The debt must be greater than \$300.00 to be considered for legal recovery process.
- b) If the debt is not satisfactorily resolved within twelve (12) months, the debt is to be recommended for adjustments or write-off.

2.7 Significant Accounting Policies

As part of publishing the Financial Statements each year, the Council sets out the significant accounting policies used by Council in Note 1. Most of these are in accordance with Australian Accounting Standards Board (AASB) guidance and specifically in compliance with the Local Government Code of Accounting Practice and Financial Reporting.

The Local Government Asset Accounting Manual (update No 4 July 1999) also provides guidance. Specifically relevant to the Significant Accounting Policies is the determination of capitalisation thresholds.

The Manual provides that each Council should set a monetary threshold for the recording of physical assets. The further guidance in this matter relates to issues of materiality.

It is now over ten (10) years since the setting of thresholds has been formally considered. As such, it is considered appropriate to review and re-establish the thresholds.

The capitalisation thresholds current (2009-10) and proposed (2010-11):

	T	
	2009-2010	2010-2011
Land		
Council land	100% Capitalised	100% Capitalised
Open space	100% Capitalised	100% Capitalised

Reseal/resheet and major repairs	>\$10 000	>\$20 000
Bridge construction and reconstruction	>\$10 000	>\$20 000

RECOMMENDATION

That Council resolve to adopt the following changes to the Significant Accounting Policies with effect from 1 July 2010 for application in the preparation of the 2010-2011 Financial Statements:

Capitalisation Thresholds

Items of infrastructure, property, plant and equipment are not capitalised unless their cost of acquisition exceeds the following:

	2010-2011
Land	
Council land	100% Capitalised
Open space	100% Capitalised
Land under roads	100% Capitalised
Plant and Equipment	
Office furniture	>\$5 000

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 157

2.8 Carry-Over Capex (Capital Expenditure)

The Council's Capital Works Program for 2010-2011 has a number of projects that as at 30 June 2011, remain to be completed.

A list of CAPEX (Annexure A) for which a revote of the Budget is necessary to complete the works is attached to this report.

The sum total of these Works in Progress (WIP) identifies the balance of the initial Budget vote from 2010-2011 in regard to the Crane Building. Council has also provided for a further \$1 500 000 in the 2011-2012 Budget, making for a total project spend in the current financial year of \$2 937 443.

After allowing for the Crane Building, the balance of the WIP, \$1 603 409 represents an increase over last year of more than \$680 000.

This is a disproportionately high ratio of carry-over CAPEX to the total program of Capital Work.

RECOMMENDATION

- 1. That Council approve the revote into the 2011-2012 Budget in the sum of \$3 040 852.02 to cover the cost of finishing capital projects in progress as at 30 June 2011;
- 2. Further, that Council revisit the capital projects planned to be completed over the remainder of this financial year and critically review its capacity to complete the scheduled CAPEX.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 158

2.9 Carryover Requests For Capital Projects

The schedule of CAPEX jobs that were planned for completion in 2010-2011 and for many reasons (including unprecedented flooding in December 2010) did not get started are listed in Annexure A to this Report.

Plant Operation - \$379 120

The plant management is based on the cost recovery of both operational and capital costs over the longer-run. The model objectives are to provide plant, vehicles, and equipment using demand for services assessments to predicate fleet arrangements.

The choice of plant, vehicle and equipment that is purchased from time to time has total costs of operation as a corner stone consideration. All overhead costs associated with the fleet management are included in these considerations.

Satisfying customer demands, and optimising utilisation of plant and equipment are continuing challenges for Fleet Management. Decisions on the mix of plant and equipment and timing associated with replacement require some degree of flexibility to ensure the cost equation remains within the limits imputed by the plant hire rates.

With these matters in mind it is only reasonable to expect that the timing associated with some plant replacement decisions will see outlays being delayed in some instances.

The Fleet Manager is therefore seeking to have the authorisation of purchases originally covered by last financial years Budget that have been deferred until this financial year, revoted in the sum of \$379 120.

Full details of these matters have been provided by the Fleet Manager to the Plant Advisory Committee (25 August, 2011).

Road Operations - \$663 732

Several projects that were planned for 2010-2011 financial year in road operations have to be considered for revote in the 2011-2012 Budget. These projects are listed in Annexure A.

Urban Services - \$80 000 See Annexure A for details.

Water Services - \$24 000 See Annexure A for details.

Summary

These CAPEX projects are now listed for consideration for purposes of revoting in the 2011-2012 Budget.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 161

RECOMMENDATION

That Council amend the 2011-2012 Budget to include the sums for Capital Expenditure listed in Annexure A.

2.10 Corporate Credit Card - Policy

Council at its meeting held 18 February 2010 resolved to approve the acquisition and issue of a Corporate Credit Card, to the General Manager, with a limit of \$10,000. Council should now formalise a policy with regard to conditions of use of a Corporate Card.

The purpose of this draft Policy is to ensure that there is accountability and transparency with regard to expenses incurred on behalf of Council.

As part of this process, a procedures document shall be formulated to clearly define the user's responsibilities and Council's process requirements, which shall be signed by the applicant and counter-signed by the General Manager.

The Local Government and Shires Association has forwarded, as a Best Practice example, a policy on the conditions of use of a Corporate Credit Card by employees of Council, which is attached to this report.

RECOMMENDATION

That Council adopt the attached Corporate Card Policy.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 163

Operational 2.14

Corporate Credit Card Policy

The following Policy Statement is to be provided to any person to whom a Corporate Credit Card is issued by Council for use on Council Business:

Credit Card Policy Statement

Corporate Credit Cards are not an entitlement to any employee and may be revoked at any time by the Council. Failure to comply with the following conditions may initiate a review of the issue of the Card.

Conditions of Use

- 1. Corporate charge card is provided based on your need to purchase business-related goods and services. The card may be revoked at any time based on a change of your position, or when otherwise deemed appropriate by the Council. The card is not an entitlement.
- 2. The credit card is to be used only for business-related purchases. Personal charges are not to be made against the charge card.
- 3. All transactions must be supported by a valid Tax Invoice. A valid Tax Invoice details the supplier's name and address, ABN and has the words 'Tax Invoice' on the invoice and clearly describes each item charged.
- 4. You are responsible for retaining receipts and/or other documentation that supports transactions made with the charge card, and you are required to reconcile your monthly cardholder statement within the nominated time frame and provide supporting documentation that verifies the transactions recorded against the charge card.
- 5. You are responsibly for timely notification of disputed transactions appearing on your cardholder statement.
- 6. You are the only person entitled to use the charge card while it is in your possession. You may not use the charge card, nor permit it to be used, for any reason other than official purposes.
- 7. You are responsible for adequately securing the charge card from loss and theft. However, if this occurs, you must immediately notify the relevant card's financial institution, the Finance Manager and the General Manager.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 164

- 8. Improper use of the credit card will be considered as a misappropriation of the organisation's funds and may result in disciplinary action, including revoking the card and termination of employment. Fraudulent use may result in the instigation of legal proceedings.
- 9. You are required to immediately surrender your credit card to the General Manager upon resignation or termination of employment with the Council.
- 10. All card holders, prior to the issue of a card are required to read, acknowledge and sign a cardholders acknowledgement of responsibilities form, which is to be countersigned by the General Manager.

2.11 Tenders For Water Meter Reading

Background

Council's water meters are currently read by plumbers and or casual staff on a triannual basis. Meter reading usually takes a month or if there are broken water mains etc can take longer.

When the meter reading units are returned to the office, the meter reads are then imported into the system and reports are run so that the meter reads can be manually checked for unusually high or low consumption.

Sometimes an inadequate time frame is left for data to be sent to the printers of the water bills because all unusually high meter reads and missed reads are referred back to the plumbers in the relevant area and the meters are re-read and these readings returned to the office to be manually corrected.

Further, there have been issues with the water meter reader hand held units since their introduction to Council. They frequently lock up which requires office staff stepping the plumbers through the procedure to reset them over the phone.

Proposal

It is proposed to retain the services of a contractor to read Councils Water Meters on a 90 day cycle to introduce quarterly billing for Water.

The plumbers priority is and should be the Water Meters and Water Mains themselves. Water Meters are like cash registers in the ground and should be handled with the priority they deserve.

Water Billing is one of Councils major revenue raisers and should also be given the priority it deserves. Meter Reading should be undertaken by trained staff who regularly do Meter reading, and are fully trained in all aspects of Meter reading.

Research has revealed that 10 of the surrounding regional councils employ the services of a contractor to undertake water meter reading. Feedback has been highly positive and timeframes for Meter Reading have been significantly reduced with meter reading timeframes of 3 weeks internally to a meter reading timeframe of 1 week with the contractor. Rates for contracting range from \$0.90 to \$1.30 per meter depending on the location and position of the meter and other variables which impact on the ease that the meter can be read. Trunk mains can cost \$10/meter.

We have approximately 3500 Meters in our Shire, therefore hiring a contractor would cost Council approximately \$4550 dollars.

Ultimately retaining the services of a contractor would both minimise the cost to council for Meter Reading as well as minimising errors and misreads.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 166

Specifications

The contract specifications would include but not limited to:

- a. The meters be read at 90 day intervals and meter reading runs be developed to meet a standard of plus or minus 2 days.
- b. All meters are to be read within 10 business days and readings supplied in file formats suited to Council data.
- c. All equipment required for reading the meters is to be owned and supplied in use by the contractor.
- d. Penalties for misreads and omissions will be incorporated into the contract terms and conditions.

RECOMMENDATION

That Council call for Tenders for the reading of Councils Water Meters on a 90 day cycle.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 167

2.12 Water Notice Format

Background

The Style and Content of the Water Notices currently being issued by Warrumbungle Shire Council is confusing and does not include simple data such as 'water consumption for this billing period'.

At water billing time, 90 percent of the phone calls received by Council are simply Rate Payers not being able to understand their Water Notice.

Proposal

To introduce a Water Notice that is easy to understand, which contains data relevant to the Billing cycle, is informative for our Rate Payers, and complies with at least the basic standard outlined in "The National Guidelines for Residential Customers' Water Accounts".

The "National Guidelines for Residential Customers' Water Accounts", outline 4 different options for providing comparative information on Water Notices.

Basic - Level 1

- Customers own water use compared to previous billing period.
- Customers own water use compared to same time last year.

Intermediate - Level 2

- Customers own water use compared to metropolitan/urban average.
- Customers own water use compared to local area average.

Advanced – Level 3

- Customers own water use compared to household (indoor) of same size.
- Customers own water use compared to water efficient household (indoor) of same size.

Level 4

- Customers own water use compared to household and garden of same size.
- Customers own water use compared to water efficient use by same household and garden of same size.

An example of a Basic – Level 1 option, would be the Yarra Valley Water Account (see Annexure A) with the information from the reverse of the Brisbane Water Account (see Annexure B) included to help Rate Payers understand their water consumption.

RECOMMENDATION

That Council implement a Water Notice layout which includes the same information as contained on the Yarra Valley water Account, with relevant information taken from the back of the Brisbane Water Account, to be included on the back of the Water Notice.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 168

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 170

2.13 Fourth Quarter Budget Review (30 June, 2011)

The financial position as at 30 June, 2011 (4th Quarter) is best demonstrated by the attached (Annexure A) Income Statement and Balance Sheet. While further end-of-year (EOY) accruals have yet to be applied they will not materially change the reported position.

Grants

Council enjoys a wide range of grant funded projects and a summary showing total income from grants is attached as Annexure B.

Cash

The cash and near cash items as at 30 June 2011 totalled \$15 465 751.25. These are detailed in a separate report to this meeting of the Council (25 August).

Budget

The Council has prepared its Budget for 2010-2011 financial year using a net approach to operating and capital income and expenditure.

The Net Budget Position as at 30 June 2011 is provided in the Summary Statement of Expenditure and Revenue (Annexure C). Since this Statement was prepared there have been several journal entries processed as part of the End-of-Year activity.

The net outcome is given as \$400 500 surplus. This is improved from earlier Budget Reviews because of one time advanced receipt of the FAG in the sum of \$1 439 546 on 24 June.

Overall Financial Position

The Council needs to include a consideration of depreciation expense and the cost impacts of flood damage to its underlying asset base as part of assessing its overall financial position. When these costs are taken into account, the financial position does not present as sustainable.

The CAPEX (capital projects expenditure) in 2011-2012 totalled approximately \$7.3 million. Work-in-Progress (WIP) as at 30 June will require a further \$1.6 million to complete. This is the subject of a separate report to this Meeting (25 August).

In summary, the rate of wear and tear is approximately \$9.5 million (depreciation expense) while the rate of re-investment (CAPEX) falls about 25% below, which means overall community equity is in decline.

Summary

While Council has a strong "Cash" position, it should take particular notice of its financial dependence on grants. Further notice should also be taken of the significance to Council's Balance Sheet of Warrumbungle Water. The importance to Council of developing a longer-run financial plan would appear critical at this time.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 171

RECOMMENDATION

That Council receive and note the Fourth Quarter Budget Review.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 172

JOHN MCHUGH

ACTING DIRECTOR CORPORATE SERVICES

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 188

Mr Steve Loane General Manager Warrumbungle Shire Council John Street COONABARABRAN 2357

Dear Sir

Attached is my report for consideration by Council

DIRECTOR OF TECHNICAL SERVICES

ANNEXURE 3

3.1 Road Maintenance Request – Extension of Yearinan Station Road

Background

The owners of the property 'Kathlindon' at the end of Yearinan Station Road are requesting maintenance works on the road access to their property. Council has traditionally maintained 4.7km of Yearinan Station Road, however 'Kathlindon' is at the end of a further 3.1km section which is not maintained by Council. The 3.1km section of road was severely damaged in the December 2010 flood event which now means the road section is impassable and the access runs alongside the erosion in the adjoining paddock

A copy of the letter from the owner of 'Kathlindon' has been forwarded to Councillors under separate cover.

Issues

Council often receives requests to upgrade and maintain sections of road not currently within Council's road maintenance network. Generally, Council has refused to increase the length of road in the road maintenance network on the basis of insufficient funds available to meet expectations on the existing road network. Furthermore, Council has generally refused to undertake maintenance work on Crown Roads.

The legal access to 'Kathlindon' is via a Crown Road and as such Council is being asked to extend maintenance on a Crown Road. However, the location of access road is not within or even close to the correct road alignment. The map in attachment 1.0 indicates the extent of current maintenance works relative to the location of the legal road and the location 'Kathlindon'.

Council road maintenance currently finishes at the property 'Yearinan' which does include a section of Crown Road.

An application was made to the RTA for funding assistance to repair damage to the road access caused by the December 2010 flood event. However, the application was

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 189

refused by Crown Lands on the basis that the actual access is not within the alignment of the legal road reserve. The correct road alignment traverses alluvial flats which appear to be more productive farming country than land used for the existing access. Hence, relocation of the road to the correct alignment does not appear to be an option.

The section of road access damaged by the December 2010 flood event traverses the property 'Yearinan' before the entrance to 'Kathlindon'. The owner of 'Yearinan' has expressed concern about liability for a road that runs through his property, but also recognizes that shifting the constructed road to the correct alignment will be detrimental to farming activities.

Options

Council has discretion in this matter, but should be mindful that any approval will set a precedent for future applications. The following options are apparent;

- Refuse to undertake any repairs on the access road on the basis that Council has no responsibility for maintenance and repair because the road traverses private property and the correct road alignment is a Crown Road.
- Council will only consider undertaking maintenance and repair work on the access road, if the land taken up by the road is created as a legal road. This option requires approval from the owner of Yearinan to creation of a public road over the access road, survey of the proposed legal road and application to Lands Property Management Authority for road opening and closing. Clearly, there are costs associated with this option and Council may wish to consider making a contribution to this process with the remaining contributions coming from the owners of Yearinan and Kathlindon.

Financial Considerations

There is no budget allocation for extending Council's network of roads and any works on the road extension will need to be funded from the existing allocation for maintenance of unsealed roads. The cost to repair the damaged section of access road as requested by the owner of Kathlindon is estimated to be around \$8,000.

The cost of closing the existing Crown Road and opening a new road through the property Yearinan is difficult to determine without quotation from a Surveyor. However, the cost of the process including applicable fees to the LPMA is estimated to be around \$10,000.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 190

RECOMMENDATION

- 1. That application by the owner of 'Kathlindon' to repair a damaged section of access road is refused on the basis that the road is not within a legal road reserve.
- 2. Council consult with the owners of 'Kathlindon' and 'Yearinan' with the aim of making a one third (1/3) contribution to the cost of creating a public road over the existing access track and closing the existing Crown Road that traverses the property 'Yearinan'. Furthermore, Council obtains a quotation from a Surveyor to undertake the process of plan preparation for opening and closing the roads.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 191

DIRECTOR TECHNICAL SERVICES

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 192

Mr Steve Loane General Manager Warrumbungle Shire Council John Street COONABARABRAN 2357

Dear Sir

Attached is my report for consideration by Council

ACTING DIRECTOR OF ENVIRONMENTAL SERVICES ANNEXURE 4

4.1 Up-Date on the progress of the Comprehensive LEP

Council will recall the meeting held in March at the Acacia Motor Inn with the consultants from GHD P/L to go through the draft Strategy document that forms the strategic backbone to the actual LEP itself. Since that meeting Council's changes from the meeting were made to the document and it was sent to the regional office of the Department of Planning in late March for their concurrence to allow public exhibition. The Department replied with issues they had with the document in early June and the consultants and Council staff have since had a meeting with the Departments staff to clarify their concerns. Subsequent to the meeting GHD P/L have made adjustments to the strategy to allow further consideration by the department and it was returned to Council in early July.

The amended document has recently been submitted to the Departments regional office for further review and Council is awaiting their reply.

Council was previously advised that it was successful in obtaining funding from the Department to complete the mapping and actual LEP mapping with the project being managed directly by the Department with Council input. The successful tender was submitted by SMEC Pty Ltd who are a large planning firm who have won other tenders in this round of funding. An inception meeting has been held with SMEC and the Department to clarify roles of the parties and it is planned that Council will be in a position to go on exhibition with both the strategy LEP and DCP sometime in late September early October. To speed up the whole process it has been agreed that all three documents can be exhibited at the same time with the added bonus being that separate exhibitions would only confuse the general public.

The amended timeframe for the whole project now has the end of December 2011 as the targeted completion date.

RECOMMENDATION

That Council note the progress in the Comprehensive LEP project.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 193

4.2 Up-Date on the Council Chambers Extensions

Council has lodged the development application for the construction of the extensions to the Coonabarabran administration building of Council and is on public exhibition until Friday the 26th of August 2011. To date very little interest has been shown in the proposal by members of the community. Should there by no objections received the application will be determined under delegated authority by Council staff in accordance with Council's policies.

At the same time expressions of interest from suitably qualified construction companies has been invited by placing advertisements in local, regional and Sydney papers to obtain a field of potential firms for Council to narrow down to five (5) to invite to provide tenders.

RECOMMENDATION

That Council note the progress in the design of the Coonabarabran Office extensions.

4.3 Proposal for Council to offer one family 2011-12 season ticket to each Swimming Club within the Shire

Background

Council maintains a supporting role to the swimming clubs associated with each of the six swimming pools within the shire. All swimming clubs are run by volunteers, and encourage the social and health benefits of swimming to residents, in addition to training swimmers for competitions.

Council has received letters from the Mendooran and Coolah Swimming Clubs requesting that a Family Season Ticket be made available for the upcoming 2011-12 pool season to allow each club to offer the tickets as a prize in raffles used as fundraisers for the club and in the case of the Mendooran Club requesting a waiver of the lane hire fees from last season being \$220.

It is not recommended to waive any club fees as the club should be aware of these fees which are minor and should budget for them each year.

Each swimming club plays a key role in drawing patrons through the gates of Council's facilities and the maximum cost to Council if each town takes up the offer will be $$1260 (6 \times $210)$. It must be remembered that this figure may not eventuate and that the person who wins the ticket may have actually had no intention of purchasing a season ticket so there may be no real loss of income to Council.

Proposal

Council to offer one family season ticket to each of the six swimming clubs in the council – Baradine, Coonabarabran, Binnaway, Coolah, Mendooran and Dunedoo. The tickets are to be provided following a written request by each Swimming Club,

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 194

and the offer to be on the requirement that the ticket is to be used for a fundraising event for their club such as a raffle and that the winners must claim the ticket after confirmation from the clubs of the winners names.

RECOMMENDATION

- 1. Council agree to donate one family 2011-12 season ticket for each of the six Swimming Clubs in the shire. The tickets are to be provided following a written request by each Swimming Club, and the offer to be on the requirement that the ticket is to be used for a fundraising event for their club such as a raffle and not transferable by the winners.
- 2. That Council advise the Mendooran Swimming Club that it will not be waiving or reducing last years lane hire fees of \$220 however, it will allow a further period until the 31 December 2011 in which the invoice can be paid.

4.4 Proposal for establishment of a Local Heritage Fund What is a Local Heritage Fund?

The Heritage Branch offers funding to local councils to set up a Local Heritage Fund. Councils can then offer small grants for heritage projects. Funding should be used as an incentive to assist heritage listed items in Local Environmental Plans as a first priority, over non-listed heritage items.

What projects can be funded through a Local Heritage Fund?

The Heritage Branch is flexible about how Council implements its Local Heritage Fund. Funding can be used for a wide range of projects that will deliver good heritage and urban design outcomes. Projects funded through Council's Local Heritage Fund may include (and not be limited to):

- Conservation works and maintenance works projects;
- Adaptive reuse projects;
- Urban design projects that support heritage;
- Conservation management plans.

What does a Local Heritage Fund offer council and the community?

Local Heritage Funding is a great investment for local councils across NSW. For the relatively small dollars that council contributes, a Local Heritage Fund generates positive, feel good community attitudes and long term on-the-ground heritage conservation outcomes.

Local Heritage Funds benefit property owners and managers and foster a positive relationship between the community and council and the wider community in the following ways:

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 195

- Encourage good heritage conservation works,
- Encourage good urban design and well designed adaptive reuse,
- Support sustainability and heritage tourism,
- Encourage works to heritage places.

Legal basis for councils to establish a Local Heritage Fund

Section 356 of the Local Government Act 1993 provides the legal basis for the establishment of a Local Heritage Fund.

Funding of projects

Local Heritage Funds operate on the following formula with funds and resources being provided from three sources:

- Owner of the heritage item At least 50% of the total project cost,
- Local government Up to 25% of the total project cost,
- Heritage Branch, Office of Environment & Heritage up to 25% of the total project cost.

Case studies

Gilgandra Shire Local Heritage Fund

Gilgandra Shire Council established a Local Heritage Fund in 2009. Typical projects funded under this program include:

- Roof restorations,
- Verandah restorations,
- Painting of buildings,
- Replacement of awning blinds.

A particular emphasis has been placed on funding the restoration of buildings within the Gilgandra business district and the main street of Tooraweenah. The works generated by this fund have been as follows:

Financial year		Total value		
	Owners Council		Heritage	of works
			Branch	
2009-2010	\$34,480.64	\$8,127.50	\$8,127.50	\$50,067.54
2010-2011	\$28,723.00	\$3,996.00	\$3,996.00	\$36,715.00

Projects funded under this program have generated substantial community goodwill and have encouraged owners of buildings to undertake additional works on their properties. One successful innovation under the Gilgandra Local Heritage Fund has been the provision of small grants to assist with renewal or replacement of traditional striped canvas awning blinds in Miller Street, Gilgandra.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 198

New awning blinds in Gilgandra.

South West Slopes Credit Union Ltd, Young

South West Slopes Credit Union Ltd operates from the former Rural Bank building in Young. This building has been identified as a contributory item in the Young Heritage Conservation Zone. In 2010-2011 the Credit Union applied for funding to assist with cleaning and repainting of the exterior of its building.

The total cost of the project was \$22,110.00. The Young Local Heritage Fund provided \$3,750.00 towards this project. Young Shire Council's contribution was \$1,875.00. Refurbishment of the exterior of this landmark building has had a positive impact on the Young business district.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 199

South West Slopes Credit Union after repainting.

RECOMMENDATION

That Council establish a local heritage fund to complement its heritage conservation objectives with a supplementary vote of \$10,000 in the 2011/12 financial year.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 200

RECOMMENDATION

That Council note the Applications Received for the month of July 2011, the Applications Held Pending as at 31 July 2011 and their status, and of those approved during July 2011, under Delegated Authority.

TONY MEPPEM
ACTING DIRECTOR ENVIRONMENTAL SERVICES

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 202

Mr Steve Loane General Manager Warrumbungle Shire Council John Street COONABARABRAN 2357

Dear Sir

Attached is my report for consideration by Council

DIRECTOR OF COMMUNITY SERVICES ANNEXURE 5

5.1 141 Martin Street Coolah (Lot 2 DP 875499)

Council received a report in relation to the flooding of Council property at 141 Martin Street and agreed to a supplementary vote of \$16,125 being for necessary subsurface and drainage remediation works (Resolution No 246, January 2011).

Quotations were sought and a local plumbing contractor engaged to undertake the recommendations provided by engineering firm, Northwest Projects.

Prior to the work commencing an inspection was made with Council's Director Community Services, Carpenter and Plumber with the Contractor. The proposed subsurface drain system within the boundary of 141 Martin Street raised some issues about removal of mature plants being a screen hedge, replacement and footings of the boundary fence and a very limited space for an effective drain in between the footpath and fence behind the house and alongside the water tank and northern side of the residence.

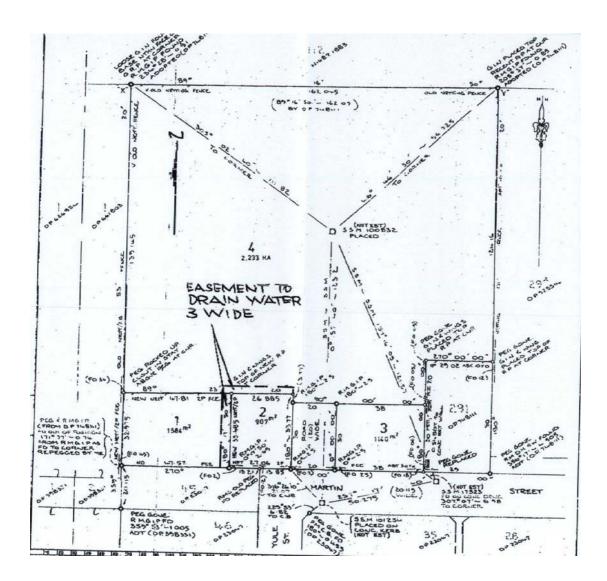

It has been proposed that the subsurface drain be installed on the adjoining property, being 143 Martin Street above the boundary fence, screen hedge and an existing contour bank. 143 Martin Street is also Council's property used for staff housing.

Advice was sought from Northwest Projects who has agreed that if this option was agreeable by Council, it would provide a better water runoff solution than the plan first proposed in January 2011.

This option however requires the creation of a three (3) m wide easement on Lot 1 and Lot 4 of DP 875499 as indicated on the following map. Lot 4 is vacant land. The subsurface drainage will take runoff water into Martin and Lew Streets.

The supplementary vote is subject of a revote request in a separate financial report to Council.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 203

RECOMMENDATION

That Council approves the creation of a three (3) metre wide easement on Lot's 1 and 4 of DP 875499 for the purpose of a subsurface water runoff drain into Martin and Lew Streets, Coolah.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 204

5.2 Fruit Fly Control Program 2011-2012

Castlereagh Macquarie County Council (CMCC) has written to all constituent Council's to ascertain interest in CMCC undertaking a Fruit Fly Control Program throughout each Local Government Area (LGA) in the next 12 months. The cost of this Fruit Fly baiting program to each member Council of CMCC is \$3,078 (ex GST).

The total budget allocation for Noxious Weeds is \$88,039.

This includes annual membership subscription charge of \$84,956; which has been paid, and an allowance for Fruit Fly Control of \$3,083.

RECOMMENDATION

That Council accepts CMCC offer and participates in Fruit Fly Baiting Control program in 2011-2012 at a cost of \$3,078 (ex GST).

5.3 Mendooran VRA

The Emergency Services budget for 2011-2012 does not include a contribution to the Mendooran Voluntary Rescue Association (VRA). Council had in the past few years provided an allocation of \$2,500 as a contribution for vehicle and administration costs. Due to low numbers the Mendooran VRA went into recess for a period of time in 2010 which extended into the new year. At budget preparation time the allocation of \$2,500 (2010-2011) had not been requested and the Association remained inactive. So the decision was made not to include it in this year's budget.

However, following a successful recruitment drive, the Mendooran VRA now has enough trained and accredited volunteers to provide an emergency response during floods and road accidents. The squad is active and will be recognised officially by the Local Emergency Management Committee (LEMC) and District Emergency Management Committee (DEMC) at the next available meeting.

Council has budgeted for a similar contribution to the Coolah and Coonabarabran VRA's being \$2,500 and \$4,000 respectively in the 2011-2012 Management Plan.

RECOMMENDATION

That Council approve a supplementary vote of \$2,500 being a contribution for vehicle and administration costs (electricity and phone) to the Mendooran VRA.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 205

5.4 IT Support Technician Trainee Position

Council resolved in October 2010 to restructure the IT section of Corporate Services after a formal review and assessment of the provision and delivery of IT Support for the organisation (Resolution 153). Andor Systems (Pty Ltd) were appointed as Council's IT Solutions Partner to provide strategic direction and management of IT support functions.

A major infrastructure upgrade of the PC servers and IT network replacement project was implemented, following the adoption of the IT Strategic Plan, presented to Council in January 2011.

Whilst the relationship with Andor remains productive and outcomes are being achieved, there is a demonstrated need for an IT designated role 'on the ground' meeting the day to day operational needs of staff. There is currently a disorganized approach to Website, Intranet, Internet, Telephones – landlines, mobiles, communication systems – emails, remote access and no IT Hardware and Software office system assistance to undertake the minor equipment R&M tasks. Minor questions and requests are being telephoned into Andor; which is not an effective use of this contract.

This support was initially proposed to be provided by a local sub contractor; on behalf of Andor. However, the tasks required are often not able to be planned for a scheduled maintenance visit and not really the type of jobs that require high end specific IT skills. So upon reflection, given the desire by Council to provide opportunities for local Year 12 students to complete their post school Gap 2 years at home, it is proposed and recommended by the IT Review Committee and MANEX to introduce a new IT Support Technician Traineeship at Warrumbungle Shire Council.

An IT Support Technician Trainee will be responsible for operational support primarily:

- Installing desktop and Notebook hardware and software for users.
- Assisting in modifying existing programs to meet requirements of Council.
- Providing users with basic support services, and escalating to Andor Service desk where appropriate
- Downloading and installing appropriate software as directed by nominated Council personnel or Andor Systems Service desk.
- Connecting users to networks and providing all users with basic training if required.
- Providing basic training and self-help instructions for computer users.
- Conducting housekeeping and preparing reports on areas of responsibility.
- Website and Intranet updating and maintenance
- Communications Telephones, Mobiles,
- Office equipment Printers etc

Many Council's are utilising the internet for distribution of media and PR material, collection of feedback via electronic means and use of social media such as facebook or email to communicate and engage with residents. An IT Support Technician Trainee will

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 206

bring some focus to the electronic age we live in and assist Council adapt to engage with its community using modern technology.

The IT Support Technician Trainee should be studying or undertake study in a Certificate IV, or similar nationally recognised qualification, in Information Technology. The career prospects of a person with these qualifications and skills gained whilst working on the job and training is very good. Upon completion the Trainee has excellent prospects of entering the workforce at a suitably qualified level or being accepted into University to undertake a Degree in IT or PC Networking. As the Trainee would have worked for two (2) years they are deemed an independent and will be eligible for Youth Allowance.

This Trainee will spend an initial three (3) weeks then one (1) fortnight every quarter being mentored at the Andor head office in Newcastle. Working with technicians in hardware and systems set up and gaining valuable experience on the Andor Service Desk responding to client and Warrumbungle Shire Council enquiries.

It is proposed that this Trainee position be placed in Administration Services; supervised by the Manager Administration in Coonabarabran until a new organisational restructure is implemented. Andor will provide the necessary IT supervision and list of day to day tasks to ensure Council meets the obligations under a NSW Traineeship of having a competent supervisor.

There are currently three (3) Council two (2) year Traineeships being prepared for advertising in October/November to the current group of Year 12 students for commencement in January 2012. The IT Support Technician Trainee will be part of this cohort.

No budget allocation has been made for this position and a supplementary vote request of \$16,000 for the first 6 (six) months is requested. However it will result in savings to the Andor contract for IT Managed Support via the Help Desk. As this position will be able to deal with the minor day to day issues in house the hours purchased from Andor will be better utilised for more difficult and complicated matters.

The position will be presented to the Consultative Committee at the next available meeting.

RECOMMENDATION

That Council approve the new two (2) year Traineeship position IT Support Technician Trainee under Administration Services, subject to Consultative Committee endorsement, and provide a supplementary vote of \$16,000 for the first six (6) months in the 2011-2012 budget.

5.5 Dunedoo SES Controller Reappointment – 2011

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 207

In accordance with the requirements of the State Emergency Services (SES) Act (s 5) the appointment of all controllers is to be formally reviewed by the Commissioner every odd number year with a common reappointment in August.

The position of Controller is a key appointment and has a major bearing on the capacity of the local SES to effectively and efficiently respond during emergencies. Council input has been invited in the recommendation by the SES Region Controller in the reappointment of the Local SES Controller at Dunedoo.

Councils' vary across the state on the method they choose for selection and may either:

- 1. recommend the person currently serving in the position of Controller
- 2. recommend another person of Council's choosing
- 3. recommend to advertise the position and nominees interviews to select the most suitable applicant

The position is currently held by Mr Lloyd Graham, a local with many years of local knowledge in the Dunedoo, Coolah and Mendooran areas. He has experience with both local volunteers as well as the staff from Macquarie Division office at Dubbo.

There is no budget implication of this decision.

RECOMMENDATION

That Warrumbungle Shire Council endorse the reappointment of Mr Lloyd Graham as Local SES Controller at Dunedoo.

5.6 Boat Ramp Castlereagh River - Coonabarabran

A local resident has written to Council requesting that the boat ramp behind No 3 Oval at Coonabarabran into the Castlereagh River be cleaned up. It is proposed that local fishing groups are attempting to restock the river and safe boat access obviously would provide for fishing and recreational activities on the river.

The boat ramp is in a marginal state, showing signs of disrepair, having not been used since the 1970's. There is a significant build up of sand and debris to the waters edge and the access road would require some work. Local's have photographs of skiing in the Castlereagh River around the boat ramp area and above the weir, dating back 30 years or more.

The boat access was closed due to landowners along the riverbank who complained of erosion caused by boat waves. Also there were supposedly a number of mishaps due to boats going over the weir crossing during floods and sand build up restricting traversing up or down stream.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 208

Preliminary investigations have suggested that to restore the boat ramp to a safe condition would require a myriad of compliance requirements by NSW Maritime. The boat ramp is not listed on Council's assets so currently is not an insured item for damage or public liability. A dredging licence would be required by NSW Fisheries to clean up the sand build up near the boat ramp. The costs of this along with the access road works alongside No 3 Oval could be quite prohibitive.

There is NIL budget allocation for the boat ramp in the 2011-2012 Management Plan nor any agreed service provision standards.

Council may wish to gauge public support and community input before a final decision is made and request a full report with cost estimates and technical issues in preparation for 2012-2013 Management Plan.

A map and some photos are enclosed under separate cover for Council information.

RECOMMENDATION

That Council take no further action in the No 3 Oval Boat Ramp clean up request due to unbudgeted, unknown cost and liability issues.

5.7 IT Infrastructure Upgrade and Applications Update

The Infrastructure Upgrade project moved onsite during July, with the installation of the new Servers and migration of all Council's existing applications and functions on to the new and reliable supportable hardware. The 2nd stage of this Phase will be the development of new virtual servers (or virtual machines – VMs) for improved File and Print, Application Support and Terminal Services (the ability to have remote access into the servers) functionality. This stage includes the migration of current server based data.

The installation has not occurred without some disruptions and downtime of Council's software applications due to some inconsistent Network Interface Cards. The whole environment is now stable and being upgraded to be maintained remotely.

The WAN Upgrade Phase is underway and preparations have been completed (design, stage and configure hardware at Andor) to ensure this phase can progress as soon as the dependencies (primarily the deployment of the new Blade Chassis hardware to the Coonabarabran Main Office Server Room) on the Infrastructure Upgrade phase are complete. Estimated time frame for this component is for late August/early September. The 3rd stage will be the migration of users from Lotus Notes to Microsoft (MS) Exchange 2010 for mail, calendar, tasks and contacts.

Policies – Andor are developing a new set of Council policies relating to IT Standard Operating Environments, internet and website usage, communications and user access.

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 209

A Desktop Refresh was implemented in July, with a second and final round to complete the upgrade of the Council desktops and notebooks by September 2011.

The Managed Support Program (MSP) Install Project has progressed as far as it can for now. The current server environment is covered (and MSP will be migrated to the new infrastructure, including the WAN, once deployed). Not all desktops notebooks are currently covered by MSP due to technical issues presented by the age/obsolesce of older hardware in the WSC fleet. This will be progressively addressed through the Desktop Refresh Program (with the first round already completed). A decision was taken to accept reactive support for those desktops/notebooks unable to be included under MSP and put effort and resources into delivering new hardware (rather than trying to manually bring legacy desktops/notebooks under MSP).

A number of issues have again arisen from the outdated and unsupported Applications; namely Microsoft Licences and Lotus Notes and Bluepoint.

Microsoft Exchange Platform

Currently Council systems operate on a MS Office 2003 platform. In order to read new applications (software) we are required to upgrade to MS Office 2010. Unfortunately when the new Servers and PC's were installed in 2005, the Licence arrangements were one off's; which means that there have been no upgrades since then. Patches have had to be installed in order for Council staff to open and read many incoming electronic documents be that from Government departments, accessing grants management software or accessing publications from private businesses.

At \$451 per user licence, which is an Local Government Licence rate the cost of this upgrade is not insignificant and requires Council to approve a supplementary vote request. Currently there are approximately 95-100 licences so the estimated upgrade cost is \$45,100. The new 2010 MS Licences would be purchased with an annual Software Assurance subscription to ensure updates are maintained in the future.

Lotus Notes

This is a notes email server program, which is linked to Council's Document and Complaints Management system called Bluepoint. We have been informed that Bluepoint will not be compatible with MS Exchange 2010 until at least the latter end of 2012. A recommendation has been made by the IT Review Committee to MANEX that Council investigate alternatives and a detailed brief is being prepared to enable Council to advertise for the supply and installation of a new Document and Complaints Management system.

And finally some brighter news to report about Councils Telephone systems.

Telephone Systems - VOIP

The Customnet Phone system installed in 2005; not long after the amalgamation has reached its capacity and alternatives are being investigated. One such alternative is a

Ordinary Meeting of the Warrumbungle Shire Council to be held at the Council Chambers, Coolah on Thursday, 25 August 2011 commencing at 11.00am Page 210

Voice Over Internet Protocol (VOIP) system which uses the ADSL and Broadband internet connections for telephone calls. A high end user such as Council will benefit financially from reducing land line rentals and timed local calls. The Servers and WAN upgrade as noted above were all designed with the capacity to install VOIP.

Initial findings reveal the cost of installing VOIP will not only pay for itself in the first year of installation will actually save Council a significant telecommunications bill currently \$11,000 - \$12,000 each month.

The IT Review Committee has recommended to MANEX that Council advertise for the supply and installation of a new VOIP Telephone system.

RECOMMENDATION

That Council notes the IT Infrastructure and Applications update report and approve the advertising of the following tenders to supply and install:

- 1. A new Document and Complaints Management system to replace Bluepoint
- 2. A VOIP Telephone system to replace Customnet.

with a report to be brought back to Council for consideration and approval, and **FURTHER** Council approve a supplementary vote of \$45,000 to enable the upgrade from Microsoft Office Applications 2003 to Microsoft 2010 for MS Office and MS Professional.

REBECCA RYAN
DIRECTOR COMMUNITY SERVICES
