Town Water Aerodrome Road

The General Manager advised that Council has resolved to investigate various ways of how to deliver water to customers who don't fit into normal parameters
Two streets – Aerodrome Road and Naomi Street
Concept of contributions was discussed although contribution may be quite a burden for length of new main
Council policy does not allow private water mains to be run along roads
Supply of water has to be certain quality and standard. Once supply is provided and a charge made, expectation that water delivered to certain pressure and quality
