EFFECT OF FUNCTIONS ON THE PUBLIC

Most of Council's functions have a direct impact on members of the public. This impact is summarised below:

- ◇ Council currently employs in excess of 200 people. Our employees are members of the local communities and support local businesses.
- ◇ Council processes a large number of applications dealing with a variety of requests. Applications dealing with land (subdivision and development) and the use of buildings are a large component of Council's activities. Council also receives requests for the opening and/or closure of roads, permission to hold special events and applications to use public facilities.
- ◇ Council is responsible for the monitoring and enforcement of any conditions imposed under its role as a Consent Authority together with enforcement of regulatory conditions which extend to Bush Fire control, animal control and any activities involving public property.
- ◇ Council is responsible for ensuring that the infrastructure and land use zonings are capable of accommodating future growth needs.
- ◇ Council is also responsible for the licensing of public halls, food outlets, caravan parks and companion animals. Monitoring of the approvals to ensure compliance with the licence conditions is an ongoing activity.
- ◇ Libraries, public halls, parks, cemeteries, reserves and swimming pools are some of a wide range of facilities provided by Council.
- ◇ Council is involved in the development of land and is currently undertaking development of land for industrial use.
- ◇ Council is actively seeking to promote economic development with the employment of staff in this area and is actively involved with tourism through the Visitor Information Centre and tourism committee.
- ◇ The provision of waste management, water supply and sewerage services is a major component of Council's budget and these activities have a direct impact on all properties serviced by the various schemes. This year waste management has been extended to the southern end of the Shire.
- ◇ Council provides a range of welfare facilities including Family Day Care Services, Connect 5 Children's Services, Meals on Wheels, Neighbour Aid and Home and Community Care.(HACC). Family Day Care co-ordinates a scheme for the Shires of Warrumbungle and Gilgandra and attends to Childcare needs and carer performance, training and support. Connect 5 Children's Services provides a service for 0-5 yrs children who are unable to access other children's services over the five areas of Coonamble, Coolah, Coonabarabran, Gilgandra and Narromine. HACC co-ordinates, promotes and provides an affordable community

transport programme and through the Coolah program provides respite care and a handy person service.

- ◇ Council's Community Development Officer and Community Agency Officer provide information, referral and assistance to the community through distribution of information and service provision to encourage self help and diversification for the community to improve and promote social development initiatives established by Council and the community.
- ◇ Warrumbungle Shire Council has developed a close working relationship with the two State Members represented within our Shire (Mr George Souris and Mr Ian Slack-Smith) and with the Federal Member for Gwydir, Mr John Anderson. This working relationship has assisted Council in representations on behalf of the community to both State and Federal Governments with some positive outcomes for the Shire flowing from those representations.

Public Participation in Council's Policy Development

Monthly meetings of Council are advertised and attendance by members of the public is encouraged. An open forum time is provided at the commencement of each monthly meeting to allow community members to address Council and senior staff on issues of concern. The opportunity to speak at these public forums is advertised regularly and participants are advised that they may speak for 5 minutes. Councillors are encouraged to ask questions at the time of the forum presentation and the Mayor accepts written information that may be provided at that time for distribution to each Councillor.

The Council considers matters referred to it by and through the General Manager from division heads, other organisations (public and private) and constituents of the area. Input from community members in any area of Council's operations is invited and welcomed. Copies of the draft Management Plan incorporating budget proposals for the ensuing year are placed in each of the libraries for community input and copies are forwarded by mail to community bodies (eg. progress associations) in outlying areas for public comment and seeking further community consultation. A variety of community groups are also contacted with a request that they make submissions on behalf of their community/group for consideration by Council during the budget preparation period.

The following committees have community representation and act as advisory bodies to Council:
